Portfolio PDF - 2026

Technical Profile

SUMMARY

I work across front-end, back-end and mobile, turning operational needs into clear and maintainable digital products.

My current stack includes TypeScript, AdonisJS, PostgreSQL, React, Redux, Vite, React Native and Flutter.

My background in digital painting helps me connect visual clarity, communication and attention to detail.

SKILLS

Front-end

● JavaScript

● TypeScript

● React

● Next.js

● Redux

● Vite

● HTML5

● CSS3

Back-end

● AdonisJS

● Nest.js

● Node.js

● PostgreSQL

Mobile

● React Native

● Flutter

STRENGTHS

- Experience with internal products and real operational workflows.
- Visual background from digital painting, applied to interface clarity and details.

Professional Experience

Experience in web, mobile and operational products.

● Full Stack Developer

Mar 2026 - Present

Carga Online - Londrina, PR

- Front-end, back-end and mobile development for an application that manages fleets, trucks and drivers.
- Work with TypeScript, AdonisJS, PostgreSQL, React, Redux, Vite and React Native across web and mobile flows.
- Delivery of features focused on maintainability, operational clarity and business-rule integration.

● Junior Front-end Developer

Apr 2025 - Feb 2026

X-Brain Desenvolvimento de Sistemas - Londrina, PR

- Front-end work on Claro's sales system using React, JavaScript and Redux.
- Translation of business rules and requirements into responsive, consistent and usable interfaces.
- Collaboration with the team on iterative delivery, code review and product-flow maintenance.

● Web Development Intern

Aug 2024 - Mar 2025

X-Brain Desenvolvimento de Sistemas - Londrina, PR

- Professional start in development, supporting the front-end of Claro's sales system.
- Participation in real project routines, code review and applied learning with React, JavaScript and Redux.

Complementary Experience

Earlier experience that strengthens communication, autonomy and visual product understanding.

● Digital Painting Teacher

Feb 2021 - Nov 2021

Escola Imago - Taubaté, SP

- Teaching visual fundamentals and creative process, strengthening didactics, feedback and communication clarity.
- Creative experience that still influences attention to interface hierarchy, visual clarity and details.

EDUCATION

Systems Analysis and Development

Universidade Positivo - Londrina, PR

Foundation in logic, web development, databases and software projects.

High School

Universidade de Taubaté - Taubaté, SP
