

João Victor Fonseca

Full Stack Developer

Developer working across front-end, back-end and mobile, building clear, maintainable digital products. My background in digital painting brings attention to composition, hierarchy and the details that shape each interface.

Londrina, Brazil

Open to remote opportunities

Professional experience

Carga Online

MAR 2026 - PRESENT

Full Stack Developer

Developing an application for managing fleets, trucks and drivers. Working across front-end, back-end and mobile, connecting business rules and operational needs with a focus on clarity and maintainability.

TypeScript / AdonisJS / PostgreSQL / React / Redux / Vite / React Native

X-Brain Desenvolvimento de Sistemas

APR 2025 - FEB 2026

Junior Front-end Developer

Front-end development for Claro's sales platform. Translating requirements into responsive, usable interfaces and contributing to iterative releases, code reviews and the maintenance of product workflows.

React / JavaScript / Redux / CSS

X-Brain Desenvolvimento de Sistemas

AUG 2024 - MAR 2025

Web Development Intern

Supporting the front-end of Claro's sales platform. Taking part in day-to-day project work and code reviews, with practical learning alongside the development team.

React / JavaScript / Redux

Skills

A visual background that complements hands-on software development.

Technical skills

Front-end
JavaScript / TypeScript /
React / Next.js / Redux / Vite
/ HTML5 / CSS3

Back-end
Node.js / AdonisJS / Nest.js /
PostgreSQL

Mobile
React Native / Flutter

CREATIVE DEVELOPMENT

Three.js / WebGL / GSAP / TSL · Used in this web portfolio.

Creative experience

Digital Painting Teacher

Escola Imago · Taubaté, Brazil

FEB 2021 - NOV 2021

Teaching visual fundamentals and the creative process. Experience in teaching, feedback and communication continues to inform my attention to interfaces and visual hierarchy.
